[CCNA: Introduction to Networks](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 5 June 2020

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Networks course and achieved this student level credential. Earner has knowledge of networking including IP addressing, how physical, data link protocols support Ethernet, can configure connectivity between switches, routers and end devices to provide access to local and remote resources. Earner participated in up to 54 labs and accumulated up to 14 hours of hands-on labs using Cisco hardware or Packet Tracer tool

[Instructor 1 Year of Service](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 7 October 2021

Description: The 1 year of service badge recognizes an instructor for joining Cisco Networking Academy and teaching the first instructor-led course. The badge is a welcome to the instructor and a recognition of the potential impact that each instructor can have on students and the communities in which they live.

[CCNA: Switching, Routing, and Wireless Essentials](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 26 April 2024

Description: Cisco verifies the earner of this badge successfully completed the Switching, Routing, and Wireless Essentials course and achieved this student level credential. The earner has a foundation in switching operations, wired and wireless LAN configuration using security best practices, redundancy protocols, and developed problem-solving skills. Earner participated in up to 45 practice activities and accumulated up to 21 hours of hands-on labs using Cisco hardware and/or the Cisco Packet Tracer tool.

Instructor 5 Years of Service

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 5 February 2025

Description: The 5 years of service badge is awarded to an instructor for active participation in Cisco Networking Academy over a period of 5 years. The badge acknowledges the instructor's growing dedication to the program and increased impact on the lives of students and the communities in which they live.

Networking Basics

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 21 April 2026

Description: Cisco verifies the earner of this badge successfully completed the Networking Basics course and achieved this student level credential. Earner has knowledge of the types of networks, how they work, how devices send and receive data, the types of network cabling, how IP addresses find information on the Internet, how transport and applications operate, and has practiced building a home wireless network. Participated in up to 13 Cisco Packet Tracer activities.

Networking Devices and Initial Configuration

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 23 April 2026

Description: Cisco verifies the earner of this badge successfully completed the Networking Devices and Initial Configuration course and achieved this student level credential. Earner learned characteristics and benefits of cloud and virtualization, explored how to provide Internet Protocol (IP) addresses to devices, calculate an IP addressing scheme, configured Cisco devices to create a small network and tested for connectivity issues. Participated in up to 7 labs and 12 Cisco Packet Tracer activities.

Network Addressing and Basic Troubleshooting

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 23 April 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Addressing and Basic Troubleshooting course and achieved this student level credential. Earner has knowledge of physical, data link and network layers, how they work together to provide end-to-end connectivity, and also understands IPv6 addressing functions and how to obtain one and the neighbor discovery process. Practiced troubleshooting skills to keep a network up and running in up to 13 Cisco Packet Tracer activities.

Network Support and Security

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 4 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Support and Security course and achieved this student level credential. Earner has knowledge to support endpoints, networks, and users including diagnostics and documentation as a member of a help desk team as well as an in-depth view of troubleshooting of networks and endpoints and knowledge and skills regarding supporting users and networks remotely. Participated in up to 10 labs and Cisco PT activities.

Network Technician Career Path

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 4 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Networking Technician career path and achieved this student level credential. Earner has knowledge of networking fundamentals, how devices communicate, cabling, network addressing and services, basics of configuring Cisco devices, troubleshooting and support of endpoints, networks, and users including diagnostics and documentation as a member of a help desk team, and basic wireless. Participated in up to 50 practice activities.

Computer Hardware Basics

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 4 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Computer Hardware Basics course and achieved this student level credential. Earner has fundamentals knowledge of computers and mobile devices, how they work, as well as the basic concepts and skills needed to install components to build, repair, upgrade personal computers and and basic troubleshooting tools and techniques.

[Introduction to Cybersecurity](#)

Issued by: [Cisco](#)

Issued to: Stephine Hubert Campos

Issued on: 5 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

[Endpoint Security](#)

Issued by: [Cisco](#)

Issued to: Stephine Hubert Campos

Issued on: 5 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Endpoint Security course. The holder of this student-level credential has a broad understanding of basic concepts of network security, as well as operating systems and endpoint security.

[Network Defense](#)

Issued by: [Cisco](#)

Issued to: Stephine Hubert Campos

Issued on: 5 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Defense course. The holder of this student-level credential has a broad understanding of techniques to monitor and protect the network, including access control, firewalls, cloud security, and cryptography. They are also familiar with how to evaluate and respond to security alerts.

[Cyber Threat Management](#)

Issued by: [Cisco](#)

Issued to: Stephine Hubert Campos

Issued on: 5 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Cyber Threat Management course. The holder of this student-level credential is familiar with cybersecurity policies and governance to ensure an organization complies with ethics standards and legal and regulatory frameworks. They understand how to do a network vulnerability assessment and create a risk management plan, as well as post-incident response.

[Junior Cybersecurity Analyst Career Path](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 5 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Junior Cybersecurity Analyst Career Path with Cisco Networking Academy. They understand techniques to monitor and protect the network, including firewalls, cloud security, and cryptography, they are familiar with security alerts and governance, and they have skills to perform network vulnerability assessment and create a risk management plan, including forensic investigations and incident response planning.

[Introduction to IoT](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 6 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Internet of Things course. The holder of this student-level credential has introductory knowledge of IoT and has an understanding how it enables the Digital Transformation along with emerging technologies such as data analytics, AI/ML and the increased attention on cybersecurity. They understand the importance of Intent Based Networking to be able to connect and secure tens of billions of new devices with ease.

[Data Analytics Essentials](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 24 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Data Analytics Essentials course. The holder of this student-level credential has a broad understanding how the data analytics process creates value from data, can explain characteristics of data, including formats, availability and methods to acquire, can transform data and analyze data using basic statistical and data preparation techniques. The holder has completed hands-on activities using Excel, SQL, Tableau and other tools.

[Introduction to Data Science](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 24 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Data Science course. The holder of this student-level credential has a broad understanding in basic concepts of Data Analytics, Data Engineering, Data Science and AI/ML related job functions. They also have insight into opportunities available for pursuing career in various data roles.

[Data Science Essentials With Python](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 24 June 2026

Description: Cisco verifies the earner of this badge successfully completed the Data Science Essentials with Python course, demonstrating the ability to use Python and industry-standard libraries to explore, visualize, and model data. Earner applied analytical thinking and communicated insights through guided projects.

[Apply AI: Analyze Customer Reviews](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 1 July 2026

Description: Cisco verifies the earner of this badge successfully completed the Apply AI: Analyze Customer Reviews Course. The learner has applied thematic analysis to analyze tables of text data with assistance of AI and spreadsheet apps. The learner has practiced choosing the right AI or non-AI tool for each task.

[Apply AI: Update Your Resume](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 1 July 2026

Description: Cisco verifies the earner of this badge successfully completed the Apply AI: Update Your Resume course. The learner has practiced using AI tools to extract, tailor, and format resume content while protecting sensitive information. They have applied privacy-first workflows, validated AI outputs through systematic review, and produced professional, ATS-friendly resumes customized to specific job postings.

[Introduction to Modern AI](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 1 July 2026

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Modern AI course. The learner will have practiced using AI enabled features on free apps, such as photo apps, translation services, and chatbots. They will have had in depth practice in prompting a chatbot, and understand fundamentals of how the models work, which informs how they prompt chatbots.

[AI Fundamentals: Foundations for Understanding AI](#)

Issued by: IBM SkillsBuild

Issued to: Stephine Hubert Campos

Issued on: 1 July 2026

Description: This credential earner demonstrates foundational knowledge of artificial intelligence and its core technologies. The individual can explain AI concepts and capabilities, differentiate human learning from and machine learning, and describe types of machine learning, and explain how neural networks and deep learning function. The earner can identify forms of AI, consider AI ethics implications, and use AI tools responsibly to generate and refine solutions.

[AI Fundamentals: Foundations for Understanding AI](#)

Issued by: Cisco

Issued to: Stephine Hubert Campos

Issued on: 1 July 2026

Description: Cisco, in collaboration with IBM SkillsBuild, verifies that the earner of this badge successfully completed AI Fundamentals: Foundations for Understanding AI. The holder of this student-level credential has foundational knowledge of artificial intelligence, including AI forms, data types, machine learning, neural networks, deep learning, and ethical implications. The earner can recognize, explain, and apply different forms of AI to everyday and professional contexts.

[CCNA: Enterprise Networking, Security, and Automation](#)

Issued by: [Cisco](#)

Issued to: Stephine Hubert Campos

Issued on: 14 July 2026

Description: Cisco verifies the earner of this badge successfully completed the Enterprise Networking, Security and Automation course and achieved this student level credential. The earner has a foundation in scalable network architectures, dynamic routing, mitigation of security threats, wide-area networks, virtualization, automation of programmable networks. Earner participated in up to 41 lab activities and accumulated up to 15 hours of hands-on labs using Cisco hardware and/or Cisco Packet Tracer tool.
